GitHub: https://github.com/priyanshukamal26/ Mobile: +91 - 9110177144

SKILLS

Languages:	C++, Python, Java, JavaScript, HTML, CSS3
Tools & Databases:	React.js, Next.js, Node.js, REST APIs, MongoDB, MySQL, PostgreSQL
AI/ML & Cloud:	OpenAI, Gemini API, Hugging Face, TensorFlow.js, AWS, Docker, GitHub Actions
Soft Skills:	Problem-Solving, Analytical Thinking, Team Collaboration, Adaptability, Continuous Learning

EXPERIENCE

IBM SkillsBuild | Front-End Web Development Internship Jun' 2026 – Jul' 2026

- Designed 8 responsive websites using semantic HTML5 and CSS3 with WCAG 2.1 AA accessibility practices.
- Applied UI/UX design audits and lazy-loading techniques, cutting average page load time by 20%.
- Collaborated with a 5-member team through Git version control and Agile sprints, shipping features every 2 weeks.

IBM SkillsBuild | AI & Cloud Technologies Internship Sep' 2025 – Nov' 2025

- Deployed and monitored ML workflows on IBM Cloud Watson Services and Object Storage, improving pipeline reliability.
- Optimized CI/CD pipelines and integrated IBM Granite and Meta Llama models into scalable infrastructure.
- Documented model evaluation metrics and API specifications to streamline onboarding for 3+ engineering teams.

PROJECTS

Newslabs | Github | Vercel Mar' 2026

- Orchestrated real-time RSS feed collection from 40+ sources for an AI-powered news aggregation platform.
- Categorized 1,000+ articles daily using NLP techniques powered by dual AI providers (Groq, Google Gemini).
- Reduced page load time by 35% through a 6-hour intelligent smart-caching layer with auto-invalidation.
- Implemented JWT-based authentication alongside trending-topic analysis and a dark-mode UI.
- Tech used - React, Node.js/Express, PostgreSQL, Groq API, Google Gemini, Render, Vercel

Hushes - Real-Time Chat Application | Github | Vercel Jan' 2026

- Launched an ephemeral real-time chat application using WebSocket-based communication (Socket.io).
- Supported 50+ concurrent users simultaneously while maintaining sub-100ms message delivery latency.
- Lowered server memory usage and hosting costs by 30% through optimized resource management.
- Engineered automatic message and session cleanup to maintain a lightweight, ephemeral chat model.
- Tech used - Node.js/Express, Socket.io, Render, Vercel

RedDot | GitHub | Vercel Nov' 2025

- Devised a menstrual health tracker with AES-256-GCM encryption and PBKDF2 -HMAC-SHA256 key derivation.
- Architected dual storage so the cloud database holds only encrypted ciphertext, achieving zero plaintext exposure.
- Integrated a stateless AI assistant (Groq API, Llama-3.3-70B) delivering sub-2-second reasoning over decrypted health data.
- Created an OCR lab-report analyzer with 95%+ extraction accuracy, auto-delete, and an irregular-cycle prediction engine.
- Tech used - Next.js, React, PostgreSQL (Neon), IndexedDB, Groq API, AES-256-GCM, Vercel

CERTIFICATES

- Oracle Cloud Infrastructure AI Foundations Associate | Oracle Apr' 2026
- Oracle Data Platform Foundations Associate | Oracle Mar' 2026
- Full Stack Developer Bootcamp | GeekForGeeks Aug' 2025
- IBM SkillsBuild FrontEnd Development | IBM Aug' 2025

ACHIEVEMENTS

- Committee Member, Student Academic Advisory Committee (LPU) - curriculum design for 20,000+ students, gathering feedback and partnering with faculty to shape academic policies. May' 2025 – Present
- Practiced 200+ LeetCode questions, strengthening problem-solving speed and algorithmic thinking. Apr' 2025 – Present

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 9.01 Aug' 2024 – Present

Saint Teresa's School Bhagalpur, Bihar
Intermediate; Percentage: 80.20% Apr' 2022 – May' 2023
